

The McGrath Foundation raises money to place specialist McGrath Breast Care Nurses wherever they're needed and seeks to increase breast health understanding

53 people

will be diagnosed with breast cancer in Australia **every day** in this year*

**19,371 women +
164 men**

are estimated to be diagnosed with breast cancer this year*

In Australia,
1 in 7 women
will be diagnosed with breast cancer by the age of 85

Care where it's needed most

The McGrath Foundation funds 135 McGrath Breast Care Nurses in communities right across Australia, who have supported more than 75,000 families since 2005.

The free support of a McGrath Breast Care Nurse is available right across Australia regardless of whether you're in the private or public health system.

About the McGrath Foundation

The McGrath Foundation raises funds to support people with breast cancer by providing specialist McGrath Breast Care Nurses where they are most needed across Australia.

The Foundation currently funds 135 nurses who provide essential physical and emotional support free of charge to anyone experiencing breast cancer and their families from diagnosis and throughout their treatment.

Breast cancer is estimated to be the most commonly diagnosed cancer in Australia (1 in 7 women will be diagnosed in their lifetime) and as the rate of diagnoses increases, so too does the need for more McGrath Breast Care Nurses.

Funding is needed to close the current gap of 120 nurses to ensure every person experiencing breast cancer has access to this invaluable service.

We rely on the heartfelt support we receive from all over Australia – including individuals, communities, corporate partners and government. They help by donating, hosting or attending events, or purchasing McGrath Foundation products, which helps us continue Jane's legacy and achieve our mission.

Together, we can make a difference.
